Did your school give any standardized tests last year? (Yes: 94, No: 13)

Standardized testing: How often? What grades?

Standardized testing: Use of test results

Standardized tests: Why not?

Please explain why your school does not use standardized testing.

Comments:

- The scores are for parents' benefit. We do not currently use scores for internal school purposes.
- We are not using standardized tests because American standardized tests do not reflect on what our students are learning from our curriculum.
- We are still in the process of establishing standardized tests to give.
- We do not use standardized testing to measure teacher effectiveness.

Comments on the CTP-4 Test

- This was our first year with CTP-4. We were pleased with the training we received from our local representative.
- Given to 4th grade and 7th grade
- We sometimes find that the test is not an accurate account of the student's actual performance in the classroom giving the parents the idea that there are inconsistencies in reporting achievement. In addition, we are not finding the test matches our curriculum as nicely as we would like.
- We don't test until 6th grade because it seems to test logic skills that we do not teach in the grammar grades. It can also be difficult for our students who come to us at the end of the grammar stage from public schools and whose individual needs have not been addressed by those schools.
- We are taking the test results to evaluate our students' achievements and abilities. CTP-4 test allows us to compare our school with other schools in the U.S.

Section II: College tests

SAT performance relative to College & Career Readiness Benchmark

Benchmark is a combined score of 1550 on the three SAT tests.
